

Red Moon Solutions and Vertex Inc. Launch Powerful Tax Process for Corporate Tax Departments

Red Moon Solutions LLC and Vertex Inc. Announce Integration of Red Moon Solutions' Fixed Assets Manager™ and Vertex® Income Tax - Domestic™

Sarasota, FL, June 18, 2008 – Red Moon Solutions LLC announced today that they have partnered with Vertex® Inc. to create a certified integration between Vertex® Income Tax - Domestic™, a comprehensive suite of corporate tax offerings, and Red Moon Solutions Fixed Assets Manager™, a robust fixed asset management tool.

This collaboration creates a first of its kind tax compliance software integration; allowing clients utilizing both Fixed Assets Manager (FAM) and Vertex® Income Tax - Domestic™ to easily move asset data from their fixed asset system for use in federal and state returns.

“Our partnership with Vertex is just one facet of the Red Moon Solutions overall strategy in which we plan to continue to enhance and extend our applications and value to our clients”, said Jim Shedivy, CEO of Red Moon Solutions. “This latest integration provides FAM clients a powerful tax process by allowing them to speed the integration of fixed asset information into returns, reduce manual re-keying of data and eliminate re-keying errors, and to provide comprehensive audit trail information flow.”

Questions regarding this powerful integration can be addressed by professionals from either company:
