Recommendations and Requirements

General Recommendations

To get maximum performance from the Fixed Assets Manager program, we recommend a 'higher-end' Pentium-based processor for faster processor speed and as much computer memory (RAM) and hard disk storage space as possible.

Hardware and Software Requirements

Before installing the Fixed Assets Manager program, you must meet at least the minimum hardware and software requirements. The following tables list the recommended configuration for running Fixed Assets Manager software:

General Specifications

	Recommended	Minimum
Backup System	Recommended, but not required to use the product.	
Internet Access	Required to access www.redmoonsolutions.com for product release information.	Not required to use the product.
CD-ROM	Required for installation	Required for installation
Color Monitor	1024 x 768 16-bit color (high color)	800 x 600 256 color
Adobe® Acrobat®	Reader 6.0 or higher	Reader 5.0
Printers	FAM requires a properly configured Microsoft Windows® compatible printer. We do not endorse or certify any specific printer models. Note: Specific drivers may be required to support your print server/network configuration.	

Local/Desktop Installation Environment

Workstation Configuration

	Recommended	Also Supported / Minimum
Operating System	Windows 7 64-bit	Windows XP with Service Pack 3, Windows Server 2003 Standard Edition
Browser	Microsoft Internet Explorer 7.0	Microsoft Internet Explorer 6.0 with Service Pack 1
Database Management System	SQL Server 2005 Express	N/A
MDAC	2.7 SP1 with Refresh	2.8
CPU	CPU (64-bit Intel Core i5 or i7 or better recommended)	Pentium 4 / 1.8 GHz or equivalent
Memory	4 GB	512 MB
Hard Drive Space Required	<p>Varies, depending on number of assets, number of books and years of history, i.e. retirements, transfers and closed years (See examples below)</p> <p>Application / Program files – 2 GB (32bit), 4 GB (64bit)</p> <p>Empty Databases – 15 MB</p> <p>Examples of Populated Databases:</p> <p>1,000 assets, 4 books, 1 year of history:</p> <ul style="list-style-type: none"> – Data File: 19 MB – Log File: 1 MB <p>7,500 assets, 5 books, 1 year of history:</p> <ul style="list-style-type: none"> – Data File: 75 MB – Log File: 3 MB <p>47,000 assets, 16 books, 2 years of history:</p> <ul style="list-style-type: none"> – Data File: 775 MB – Log File: 32 MB 	

Network Installation Environment

Workstation Configuration

	Recommended	Also Supported / Minimum
Operating System	Windows 7 64-bit	Windows XP with Service Pack 3, Windows Server 2003 Standard Edition
Browser	Microsoft Internet Explorer 7.0	Microsoft Internet Explorer 6.0 with Service Pack 1
CPU	CPU (64-bit Intel Core i5 or i7 or better recommended)	Pentium 4 / 1.8 GHz or equivalent
Memory	4 GB	512 MB

File Server Configuration

	Recommended	Also Supported / Minimum
Operating System	Windows Server 2003	Network file server with appropriate rights Windows 2000 Server Edition with Service Pack 3 Windows Server 2003 SP1
CPU	Dual Pentium III / 800 MHz or equivalent	Industry standard for chosen operating system
Memory	Industry standard for chosen operating system	N/A
Hard Drive Space Required	2 GB (32bit), 4 GB (64bit) for program files	N/A

Database Server Configuration

	Recommended	Also Supported / Minimum
Operating System	Windows Server 2003 or Windows Server 2008 or 2003 or Windows Server 2008 R2	Windows 2000 Server Edition with Service Pack 3 Windows Server 2003 SP1
Database Management System	SQL Server 2005 or SQL Server 2008 or SQL Server 2008 R2	SQL Server 2000 Standard Edition with Service Pack 3
MDAC	2.7 SP1 with Refresh	2.8
CPU	Dual 2.66GHz or equivalent	Pentium III / 733 MHz or equivalent
Memory	4 GB or more, plus what is required for the operating system	512 MB or more, plus what is required for the operating system
Hard Drive Space Required	<p>Varies, depending on number of assets, number of books, and years of history, i.e. retirements, transfers and closed years (See examples below)</p> <p>SQL Server database components: 250 MB typical (See SQL Server documentation for more information)</p> <p>Empty Databases – 15 MB</p> <p>Examples of Populated Databases:</p> <p>1,000 assets, 4 books, 1 year of history:</p> <ul style="list-style-type: none"> – Data File: 19 MB – Log File: 1 MB <p>7,500 assets, 5 books, 1 year of history:</p> <ul style="list-style-type: none"> – Data File: 75 MB – Log File: 3 MB <p>47,000 assets, 16 books, 2 years of history:</p> <ul style="list-style-type: none"> – Data File: 775 MB – Log File: 32 MB 	

Terminal Server Environment

Terminal Server Configuration

	Recommended	Also Supported / Minimum
Operating System	Windows Server 2003	Windows 2000 Server Edition with Service Pack 3
Database Management System (Client Only)	SQL Server 2005	SQL Server 2005 Express, SQL Server 2000 Personal Edition with Service Pack 3
Browser	Microsoft Internet Explorer 7.0	Microsoft Internet Explorer 6.0
MDAC	2.7 SP1 with Refresh	2.8
CPU	CPU (64-bit Intel Core i5 or i7 or better recommended)	Pentium 4 / 1.8 GHz or equivalent
Memory	250 MB per concurrent user	100 MB per concurrent user
Hard Drive Space Required	100 MB	100 MB
