

I want to know we have  
the right software.

## Fixed Assets Manager™

Red Moon Solutions wants to give you what you want in a fixed asset management solution, not what you need to “get by”. That’s what makes Red Moon Solutions’ Fixed Assets Manager (FAM™) stand out from other asset management software options. FAM’s years of experience in action, comprehensiveness and unrivaled flexibility provide the solutions you want in a fixed asset tool.

## Experienced.

Created for one of the largest accounting firms in the United States, FAM is a robust, well-seasoned solution. FAM’s practiced and responsive support professionals are equipped with extensive knowledge in both tax and technology. All FAM clients are assigned an individual account representative and will receive personalized, quick responses to their needs.

## Comprehensive.

FAM is actively enhanced to support what Red Moon’s clients want, not just what they need—providing Big 4 accounting firms and

“FAM is a comprehensive, feature rich product possessing the flexibility and functionality to easily adapt to our changing needs.”

– Susan C. Rich, Manager, Income Taxes  
Pitney Bowes

Fortune 500 companies the powerful management features, tax calculations and reporting capabilities they desire. FAM also provides enough flexibility to support unique scenarios that surprise small and large tax departments alike.

## Flexible.

FAM offers the ability to easily import data from Access®, Excel® and text files, as well as the ability to export period data into a file for transfer back into the GL of professional accounting packages. Showcasing the ability to accommodate a wide variety of business scenarios, FAM goes beyond providing depreciation information, assisting with property tax filings and state apportionment. FAM also integrates with financial, ERP and compliance platforms including Vertex® Domestic Compliance software.

## Customize

- Streamline your setup and maintenance using a single database, which can be accessed by multiple users.
- Begin quickly with an MS® Explorer-style interface and wizards that guide you through processes such as setup or life-to-date.
- Customize navigation, including windows and toolbars.
- Create custom books and reports, and perform advanced searches.
- Minimize data entry by using an existing asset file as a template. Then, create new files and easily copy assets, asset types and user-defined fields from one entity to another.
- Supports an unlimited number of user-defined fields to maintain business records, sort and group reports, perform advanced searches and create custom views of your assets.

## Integrate

- Encompasses six import types such as: retirements, transfers, and mass updates to assets, which significantly reduce time spent managing your fixed assets.
- Improves flow of information. FAM<sup>™</sup> integrates with general ledger and tax software so data is shared with various financial software.
- Supports a certified integration with Vertex® Income Tax - Domestic<sup>™</sup> and can integrate with various financial platforms and ERPs.

## Support

- Technical support from individuals with both tax and technical expertise is included for the duration of your license.
- Built-in assistance features include traditional online help, right-click menu options and access to [www.redmoonsolutions.com](http://www.redmoonsolutions.com) where FAQs and other self-support options are open for access 24/7.
- Tutorials, data conversion, installation and other services are also available.

## Thorough

- Automatically calculates depreciation for ACRS, MACRS, SL and many other methods.
- Calculate SL after switching from an accelerated

method, as well as enable automatic switching at 125%, 150% and 200% declining balance. Additional calculations include:

- Short years
  - Section 179 & Section 280-F auto limitations
  - Bonus depreciation
  - Mid-quarter convention
  - Investment Tax Credit
  - Amortization
  - Units of production
- Intra- and inter-entity asset transfers.
  - Audit trail capability for specific tasks performed within the system, including: deleting entities and books, renumbering assets and closing years.
  - System-defined asset types for all IRS-prescribed tax classes.
  - Supports all asset transactions including: full & partial dispositions, bulk dispositions, inter- and intra-entity transfers and asset splits.
  - Tax law updates maintained and disbursed by Red Moon Solutions.

## Complete

- 40+ pre-defined reports and custom report writer.
- Simple process for retiring and consolidating data carrying to FAM's fileable Forms 4562, 4797, 4684, or 6252.
- Depreciation projection reports.
- Report set creation for simplifying reporting across different departments or groups.
- Reporting capabilities required to support compliance.
